

Wisco Products 700 SERIES Filler Caps and Accessories

Large-diameter filler systems for oil, fuel and hydraulic applications

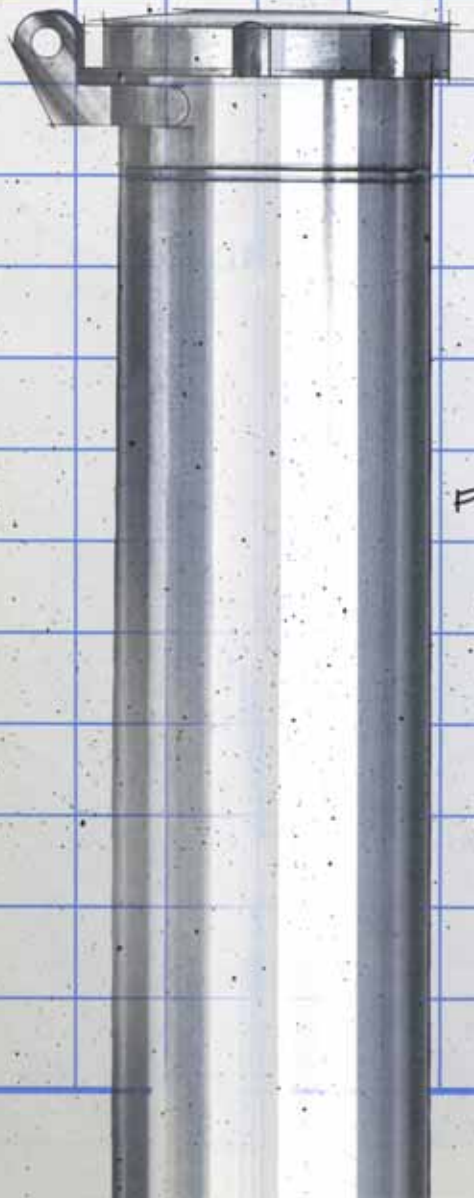

Wisco Products produces a complete line of filler caps, necks and accessories for a broad range of markets including heavy-duty transportation, industrial, agricultural, locomotive, and motor sport, among others. We pride ourselves in our high quality, heavy gauge materials as well as our precision fabrication.

Our 700 Series products match applications with a sealing area of about 2.5 inches diameter (see the drawing). Together the cap, neck and strainer assembly lets you meet requirements for oil, fuel or hydraulic applications.

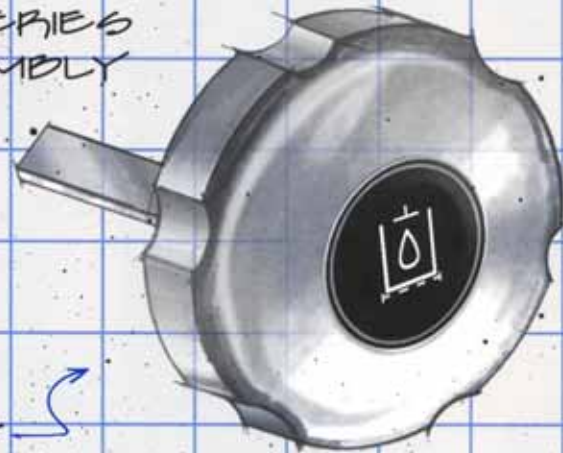

Two different strainers provide varying degrees of filtration for 700

Series caps and necks to help you maintain clean fluids within your engine system.

Wisco Products also specializes in meeting your custom needs. Regardless of your order quantity, Wisco provides the service and performance you can count on.

700 SERIES CAPS

Our large-diameter, precision-fabricated caps provide excellent performance for a variety of fluid systems.

- For use with oil, diesel fuel, and hydraulic applications
- Heavy-duty locking cup and diaphragm
- ASTM A2000 rubber gasket
- Clear zinc plating
- Every cap pressure tested to 10 psi

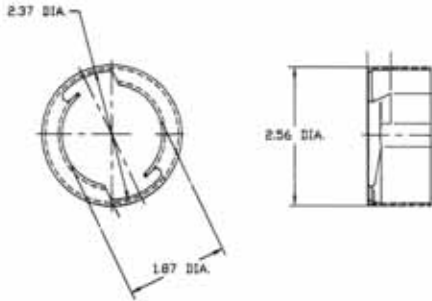

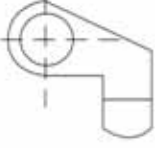

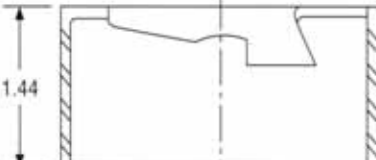

Decals	Pressure	Chain	Dipstick	Lock Tab
<p>7160</p> <p>Fuel</p>	Straight vent	<p>Stainless link</p>		
<p>7161</p> <p>Oil</p>				
<p>7162</p> <p>Hydraulic</p>	Non-vented	<p>"S" Hook</p>	<p>Spot-welded to cup (Specify length and markings)</p>	
<p>7163</p> <p>Hydraulic (Alternate)</p>	Vented with baffle			
Other (Specify)				

700 SERIES NECKS

We produce our 700 Series necks with the same high quality materials and precision as our caps to exactly match your fluid reservoir requirements.

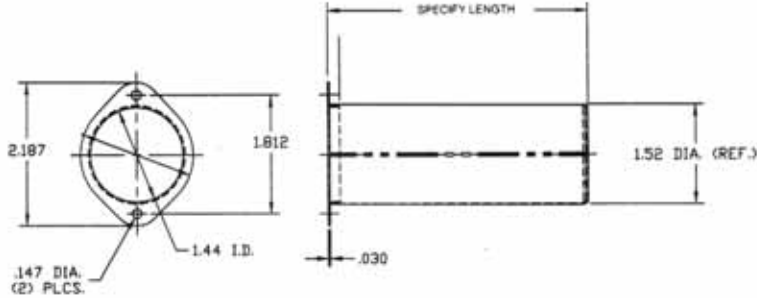

- For use with 700 Series caps
- For oil, diesel fuel, and hydraulic applications
- 16 gauge (.060 in.) steel
- Available with extension tubes, nozzle flap, strainers, and chain anchors

Neck Height	Tube Extension	Lock Tab
<p data-bbox="305 835 386 865">7601-1</p> 	<p data-bbox="719 835 1125 865">2.625 O.D. 0.120 wall Steel Tubing</p> 	
<p data-bbox="305 1409 386 1438">7601-2</p> 	<p data-bbox="703 1398 1141 1428">Specify tube length and configuration</p>	

700 SERIES STRAINERS

- For use with 700 Series necks and caps
- Stainless steel construction

Style	Filtration	Length
7679	40 x 40 mesh	(Specify)
7680	50 x 50 mesh	

Call us first!

Wisco Products specializes in providing a full line of fluid filler components for all your engine and fluid containment systems. Chances are we have what you need in one of our standard products series. If not, we'll make it for you. Call Wisco first for high performance product and service on all your filler product needs.

Service and performance you can count on.
